Singapore Harrietts 500th Run:

Thank you Harrietts for your invitation and a good day out. It must have been a good run, I was completely knackered, wish I'd taken the other run, they were in before us.

Thanks for a good night, liked the Can-Can. On On to your 1000th.

REHASH RUN NO. 18 - BARRY MANN, SARAH & DICK LEITCH.

"The E.T. Go Home Hash"

Ranking as one of the best Hashs for the Lion's, this Hash had everything going for it.

Tootsies were bared initially until we alighted on the boats - a few members submergedinto the mud - seen again at low tide, when the booze wagon arrived on the shore. Some of the more macho members showed their style by immersing themselves with shoes still firmly applied to feet - well done Pat Leggett- 10 points for macho, one point for brains.

This run specially designed to catch those who merely make a B-line for the Booze wagon, lampooned us upon the island of ? (well it wasn't Coney), and we had to follow those little white squares to get back to civilisation. Long smooth paths allowed the sprinters to show their 'strides', and then to finish through the native bush - which had been cleared manually by the "Hairs"- of snakes, crocs & native population - God those Hairs are ugly!

Several members climbed the rope assault course, revealing their considerable 'physics'. Realising the potency of their stance these leading ladies encouraged those "coming" behind and it can only be regretted that skirts have lost fashion in the club.

I look forward to the next trail set by these "hairs", but how will they manage to improve on the location, speed boats and of course T-shirts & the food.

SCRIBE: Robert Stone.

Thanks Robert, glad you enjoyed the run. Happy Birthday Barry, thank you Hares for a good run, good On On, & I hear that the On On On, for those souls who stayed, went on till 3.30 ! - are we getting a reputation for good Friday nights?! On On keep it up.
