

REHASH RUN NO: 22 APRIL 22nd, 1983.

HARES - ALISTAIR COOKE, CHRISTINA KANNANGARA & ALISTAIR ROFF.

I must say that was a good run (I must say, or look for someone to sign me in next Friday!). Seriously though, it would have been great had that big Hasher in the sky not turned on the taps - or was he trying to make it really difficult?? After about 20 mins of looking for paper and at one stage actually being guided back in the general direction of the straight (Johore) and narrow the pack split into smaller and smaller groups most of which eventually gave up and headed back (not in disgust). However, at least one small team of pungent plodders tenaciously trekked on (and on). At one stage and as Seleta Island appeared on our port bow, with thoughts of a cold beer clouding the mind, we almost decided to retrace our steps. Then came the cry On On, from that point and with increasing rapidity more paper was discovered. Thru kampong and over large clay reclamation only to find we had completed a large type circle, back on to the main road and no paper, very demoralising. Discretion, the fear of being lost and thoughts of SCB's consuming the booze, we headed back eventually straggling in at 7.10.

Thanks to the Hares Christina Kannangara and Alstair Cooke for a valiant attempt. Thanks also to our On-On hosts, the cooking Cookes, for a fantastic spread.

SCRIBE: - TONY ADAMS

Thanks Tony for taking over the task at such short notice.
