

Run no. 39 :

Hares : Anna Miaja Aho
Nor Askin
Barry Crash

About 90 of us were given a very good run by the hares. Good length, spaced out checks, varied terrain, a nice run-in, no cars or traffic, excellent Hashing country.

The On On , kiwi-style, at the Terror Club sounded very interesting and a lot of people, I am told, went, despite the unfortunate delay.

Cheers to Anna, Noor and Barry for a number one evening.

And some trash (pipped off from Monday SH3) :

"An Englishman, an American and a Canadian once found a rusty old lamp in the desert.

On opening it a huge genie poured out and granted them each one wish for releasing him.

'I wish to be head of the Manor back in Blighty', said Wood and WHOOSH he was gone !

'I wish to be a film star, surrounded by thousands of willing women', said Marshall and WHOOSH he was gone !

'I can't make up my mind, I wish my mates were here', said Cockman."

As of next weeks newsletter the run report will be one week in arrears - so no run report in next weeks blurt. There are two reasons for this, one is to give the scribe a bit more time to put it all together without destroying the ON-ON for the "poor volunteer" who can have a bit more time to get the act together and secondly to give our overworked compositors a bit of a chance in the printing.

"Inconvenience Regretted"

HARES:- Please give Veronica your Map Reference three weeks in advance and make sure the parking area has room for 80 cars. If you have any queries please ask for help.

ALL MEMBERS PLEASE NOTE:-

To avoid any confusion all information to go into the Newsletter has to be submitted through th ON SEC - PHIL WOOD.
