LCH3.

And now a notice for the wee ones.....

HASH HOUSE HORRORS RUN NO: 3.

When: Sunday, 30 Jan '83. (I.E. Last Sunday in every month.)

Where: Upper Pierce Reservoir at car park. Map 230 B3. Turn left from
OLD Upper Thompson Rd.

Time: Registration & \$5 at 4.00pm.

Run start 4.30pm.

On On: On site. Fish & Chips &, and minun. Parents may buy makan at
\$3.50 per portion, but please bring your own drinks.

All children between 4 - 12 years are welcome. For registration please
call Megs Jackson, Tel: 4682557, (in advance please) On On!

NEW BOOTS: A Hash welcome to our four new members:- Mike Daniel, Alastair
Roff, Norm McFarlin and Farna Knapp. Happy Hashing!

HASH FAREWELL: Although we've only had 7 runs we are already saying
farewell to Liz Gonn and Roy Franklin who are leaving Singapore. Hope
you continue to have happy Hashing in Scotland.

HASH THANKS: To Tom for hosting the On On on Xmas Eve and to Steve &
Judy for hosting the On On on New Years Eve. From those who attended
a big thanks for two very good evenings.

It was disappointing that 3 members who had signed up for this weeks On On
didn't turn up, leaving the Hares out of pocket. In future, where the
Hare has gone to a lot of trouble to give us a good On On, and has had
to give the Club exact numbers, would members please cancel if they are
unable to attend.

REHASH OF RUN NO. 7. Seletar East Farmway 1. Hares: The Crofts

Scribe: Sarah Leitch.

We started 10 minutes late in the pouring rain. The Scribe thought she
was in luck as the run started off as a stroll through the grass but it
got progressively faster. and spellier.

The first check was an easy one (so they tell me). One of the advantages
of running, (sorry walking), at the back is that you don't have to do any
of the hard work but when you lose sight of the person in front, and the

rain has turned the paper almost invisible, you are buggered as you don't know what to do!

The second check was a good indication of things to come! We then progressed on a tour of Singapore sewers. Liz Gonn and Joe saw more than the rest of us having taken the plunge!

Mike Croft eventually showed himself, exhausted from having to relay the trail, and ushered us through a hole in the fence. At this point Peter & Co. took the 10 min. route. A little further along we met Boo running backwards for a change!

As we were touring through the Hampong we couldn't help noticing a couple on a tandem who seemed quite happy until this dog ran out and chucked a bucket of water over them.

By all accounts most people were home in 50 mins. although some of us took a little longer. But we were all home before it was dark.

Whilst Paul and Pat went to look at the frogs (so they say) the rest of us made our way to the On On. There, a good nosh was followed by a rowing sing-song surprizingly led by Boo! During this, fabulous prizes were on offer. Steve won a dirty pr. of socks and Dave Marshall won the star prize of a shoe. No doubt he'll be back next week for the other one?

Mike made another announcement, a combination of bad news and bad news. First the bar was closing and very shortly after the club was closing, so we all had to be out.

Nice run Mike & Julie.

Many thanks to our scribe, Sarah, and to the hares for a good run and On On.

HASH TRASH DUA. This week a somewhat different view on Harriets and what they're made of:-

How do scientists look at these 'soft' people we call women? The Chemical symbol for this is, of course, 'WO'. Atomic weight - 120 more or less. Found - wherever man is found. Physical properties - Generally round in form. Boils at nothing and may freeze at any time. Melts when treated properly. Very bitter if not used well. Chemical properties - Very active. Possesses affinity for gold, silver, platinum and precious stones. Violent when left alone. Able to absorb great amounts of exotic food. Turns slightly green when placed beside a better looking specimen. Ages rapidly. Uses - highly ornamental. Catalyzes the disintegration of wealth. Is probably the most powerful income-reducing agent known. Caution - highly explosive in inexperienced hands. Lesson to be learnt - DON'T PLAY WITH FIRE.

(Anyone got a good Hash Trash about the male of the species?????)
