

Murder Most Fowl  
 Birthday Chickenshit

Lorong Terigu, 6.00 pm saw Mike ,the pie eyed Pooper of hamlin walter Gabriel squeezing his horn & we, following , like a band ~~of/dangle-~~  
~~of/dangle-~~ of cheese hungry mice behind foreskin and The Barnes sisters certainly led us a merry chaseoer dale & hillock. lengthy back checks cleverly positioned really put us from top to bottom and back to front and vice to verca, Quote heard from 'Pig Dog '"never been f...ed about with for so long without being kissed "unquote. Where did Mann get that coconut matting chest warmer?, a well run area but still managing to confuse and cajole a lot of us, a good lesson in the finer points of how to juggle a tight area into a neat display of something or other . th e run out to the first check took us past chateau Barnes and gave us the opportunity to catch Allen , ironing his dress for the party and Sally pounding out her latest novels entitled ' Hilarious moments in the Ladies hash' An easy to read 6 page pamphlet in 4 languages wirh two fly sheets and full page illustrations,all returned back to the beer truck and a good piss up, made our way eventually to the barnses'8 place who, as is their no provided an excellant meal and allowed a bunch of mud crazed loonies to fall about all omer their tasty flat, bye, you've got guts, but on a serious note , on behalf of all of the attendees on Friday a big thanks to the allen & Sally for their hospitality, I only nicked the candlesticks, Martin King stole the silver salad servers, honest , Social Shit of the week is placed gegtly on the shoulders of Andy who didn't run but turned up for the nosh and grog looking like something from Willy Wonker And the chocolate factory' all tarted up to the nines and not even a slight whiff of running sweat....

It made a bloody nice change to go over that 'orrble sungei on that narrow bridge instead of down the bloody thing ,a nice check that. Verdict : something to think about for those of us that haven't laid a lot of things, a good false trail and back checking is what it's really all about!!!

The buses will leave at 4.30 and there will be three runs to choose from Long, Longer, and longest. and the beer wagon will finish at eight to be replaced by the on on in the club premises so this should be one of those nights to try and remember.....

A few nags from the committee!!!!

At the beginning of each run, could all members please make sure their attendance is registered on the card index so that we then have an actual record of the number of runs each hasher has completed to qualify for his award or her reward, and also if you collapse with a heart attack in the jungle we can cross you off the membership list and save ourselves 10 cents. A few weeks ago, one of the hares was giving hints at the checks. This is definitely not H and should only be forgiven in the event of extreme circumstantial unusual happenings, Nuclear war, Papal castrations, free beer at the befeater and the like or if the pack has been searching for more than twenty minutes. If anybody knows the whereabouts of any copies of the Singapore street guide could they please tell us or even buy a few copies we will gladly reimburse any expense incurred ....

Will all members make sure that their guests are signed in, in the guest list, the rules, you all know males can bring one lady, and the females can come with one man!!! If you have any difficulty deciding who is what please contact the committee for a second opinion..

We have decided to put the hare line on a rotational basis to make the hareline easier to manage so don't be shy when your turn arrives and if you don't feel you can manage on your own please ask any of the committee to supply you with an experienced hasher to help lay the paper..

ENOUGH THAT RUBBISH
